<u>Financial Policy Regarding Vision VS Medical Insurance</u>

It is Important that you be aware of your insurance benefits and how they apply to your visit, so you will know how billing will be handled. Ultimately, it is your responsibility to know what your own insurance plan covers.

If you intend to use your vision insurance benefits for your exam today, please be aware that vision insurance (VSP, Davis, Eyemed, Always Care) only cover an exam that is **ROUTINE**. A "routine eye exam" takes place when you come for an eye examination without any medical eye problem. The doctor screens the eyes for disease and will check your vision. If you have a medical condition that drives the exam, the exam **HAS TO BE** billed to your medical insurance and you will be subject to copays and deductibles according to your plan. This includes if your blurred vision is caused by cataracts, complaints related to dry eye, floaters or allergies, or if you need a diabetic exam or follow up for glaucoma or macular degeneration. Even if your exam is medical, we can often still use your vision insurance to help cover the cost of your glasses or contact lenses.

Refraction Fee

You, the patient, are responsible for services not covered by your insurance plan. For example, refraction for glasses is a non-covered service with medical insurance. This is a part of the eye exam in which your prescription is checked. It is considered a routine service. If you do not have vision insurance, you will be expected to pay for the refraction on the day of service, which is \$40.00

Your signature below indicates that you understand the differences between routine and medical eye examinations and the potential implications of the differences on the type of exam that gets billed and the potential for fees that may include co-pays, deductibles, and/or co-insurance. You understand that you are responsible for any of these fees as determined by your insurance carrier. If you have any questions, please feel free to ask a member of our staff.

THIS PAGE FOR CONTACT LENS PATIENTS ONLY

Patient Acknowledgement of Contact Lens Policy

Contact lens patients require monitoring and testing that is beyond what is done for a standard eye exam. This may include:

- -Examination of the cornea to ensure health and look for complications from contact lens wear
- -Assessment of the contact lens on the eye for appropriate fit
- -Contact lens refraction to ensure correct power
- -Contact lens trial period
- -Follow up appointments to address any issues/answer questions/verify prescriptions

There is an additional \$75 fee for this service that is not included in the fee for a standard eye exam. If this fee is not covered by your insurance, payment will be due at the time of service. No trials will be ordered or contact lens prescription released until the contact lens fee has been paid in full. Note that color contact lenses require a specific fit. It is your responsibility to inform the doctor prior to beginning your fit if you are interested.

Often the doctor will recommend a follow up visit to make sure that your contacts fit well and the prescription is correct. Any follow up visits and trial lenses are included with this fee within 90 days. If you wait and return after the 90 day period, another fee will be charged.

Please inform our staff if you are unable to pay this fitting fee today, and we will be happy to reschedule your fit.

The CDC recommends the following for contact lens wearers:

- -Schedule a visit with your eye doctor at least once a year
- -Take out contacts and call your doctor if you have any eye pain, discomfort, redness or blurry vision
- -Understand that eye infections that go untreated can lead to eye damage or even blindness Symptoms of eye infections include:
 - Irritated, red eyes
 - Light sensitivity
 - Worsening pain in or around the eyes-even after contact lens removal
 - Sudden blurry vision
 - Unusually watery eyes or discharge

By signing below, you acknowledge that you have read and understand the contact lens fitting policy and a copy of your finalized prescription has been provided to you.
