Signature on File Authorization

Please understand if you do not sign, we are unable to file your insurance and you will be responsible for your total bill.

I request that payment of authorized insurance payment be made to the Doctor on my behalf for any services provided to me by my physician. I authorize any holder of medical information about me to be released to determine the benefits payable for related services.

Signature of Patient or Responsible Party:_____Date:_____

I Further understand that I am responsible for the entire bill if declined/or referred to me by my insurance. Insurance is filed as a courtesy to our patients. Balances are due within 30 days of the filing date. Insurance copays are due at time services are rendered (we are considered specialist, so it will be whatever your specialist copayment is). Insurances with unmet deductibles must be paid in full at time of service. Payment for non-covered services by private insurance is also due once services are rendered. Any private insurance that is unknown or out of network by our clinic must be paid in full at time of service, once/if we receive payment after filing, we will reimburse according to your insurance payment.

Financial Policy Regarding Vision VS Medical Insurance

It is Important that you be aware of your insurance benefits and how they apply to your visit, so you will know how billing will be handled. Ultimately, it is your responsibility to know what your own insurance plan covers.

If you intend to use your vision insurance benefits for your exam today, please be aware that vision insurance (VSP, Davis, Eyemed, Always Care) only covers an exam that is **ROUTINE**. A "routine eye exam" takes place when you come for an eye examination without any medical eye problem. The doctor screens the eyes for disease and will check your vision. If you have a medical condition that drives the exam, the exam **HAS TO BE** billed to your medical insurance and you will be subject to copays and deductibles according to your plan. This includes if your blurred vision is caused by cataracts, complaints related to dry eye, floaters or allergies, or if you need a diabetic exam or follow up for glaucoma or macular degeneration. Even if your exam is medical, we can often still use your vision insurance to help cover the cost of your glasses or contact lenses.

Refraction Fee

You, the patient, are responsible for services not covered by your insurance plan. For example, refraction for glasses is a non-covered service with medical insurance. This is a part of the eye exam in which your prescription is checked. It is considered a routine service. If you do not have vision insurance, you will be expected to pay for the refraction on the day of service, which is $40.00

Your signature below indicates that you understand the differences between routine and medical eye examinations and the potential implications of the differences on the type of exam that gets billed and the potential for fees that may include copays, deductibles, and/or co-insurance. You understand that you are responsible for any of these fees as determined by your insurance carrier. If you have any questions, please feel free to ask a member of our staff.

Patient Acknowledgement of Contact Lens Policy

Contact lens patients require monitoring and testing that is beyond what is done for a standard eye exam. This may include:

- Assessment of the contact lens on the eye for appropriate fit
- Examination of the cornea to insure health and look for complications from contact lens wear
- Contact lens refraction to insure correct contact lens power

There is an additional **$95 fee** for this service that is not included in the fee for a standard eye exam. If this fee is not covered by your insurance, payment will be due at the time of service. **No trials will be ordered or contact lens prescription released until the contact lens fee has been paid.** Note that color contact lenses require a specific fit. It is your responsibility to inform the doctor prior to beginning your fit if you are interested.

Often the doctor will recommend a follow up visit to make sure that your contacts fit well and the prescription is correct. Any follow up visits and trials are included with this fee within 90 days. If you return to the clinic after 90 days, another fee will be charged.

Please inform our staff if you are unable to pay this fitting fee today and we will be happy to reschedule your fit.
